

# Future of Urban Mobility

## A Background Presentation

---

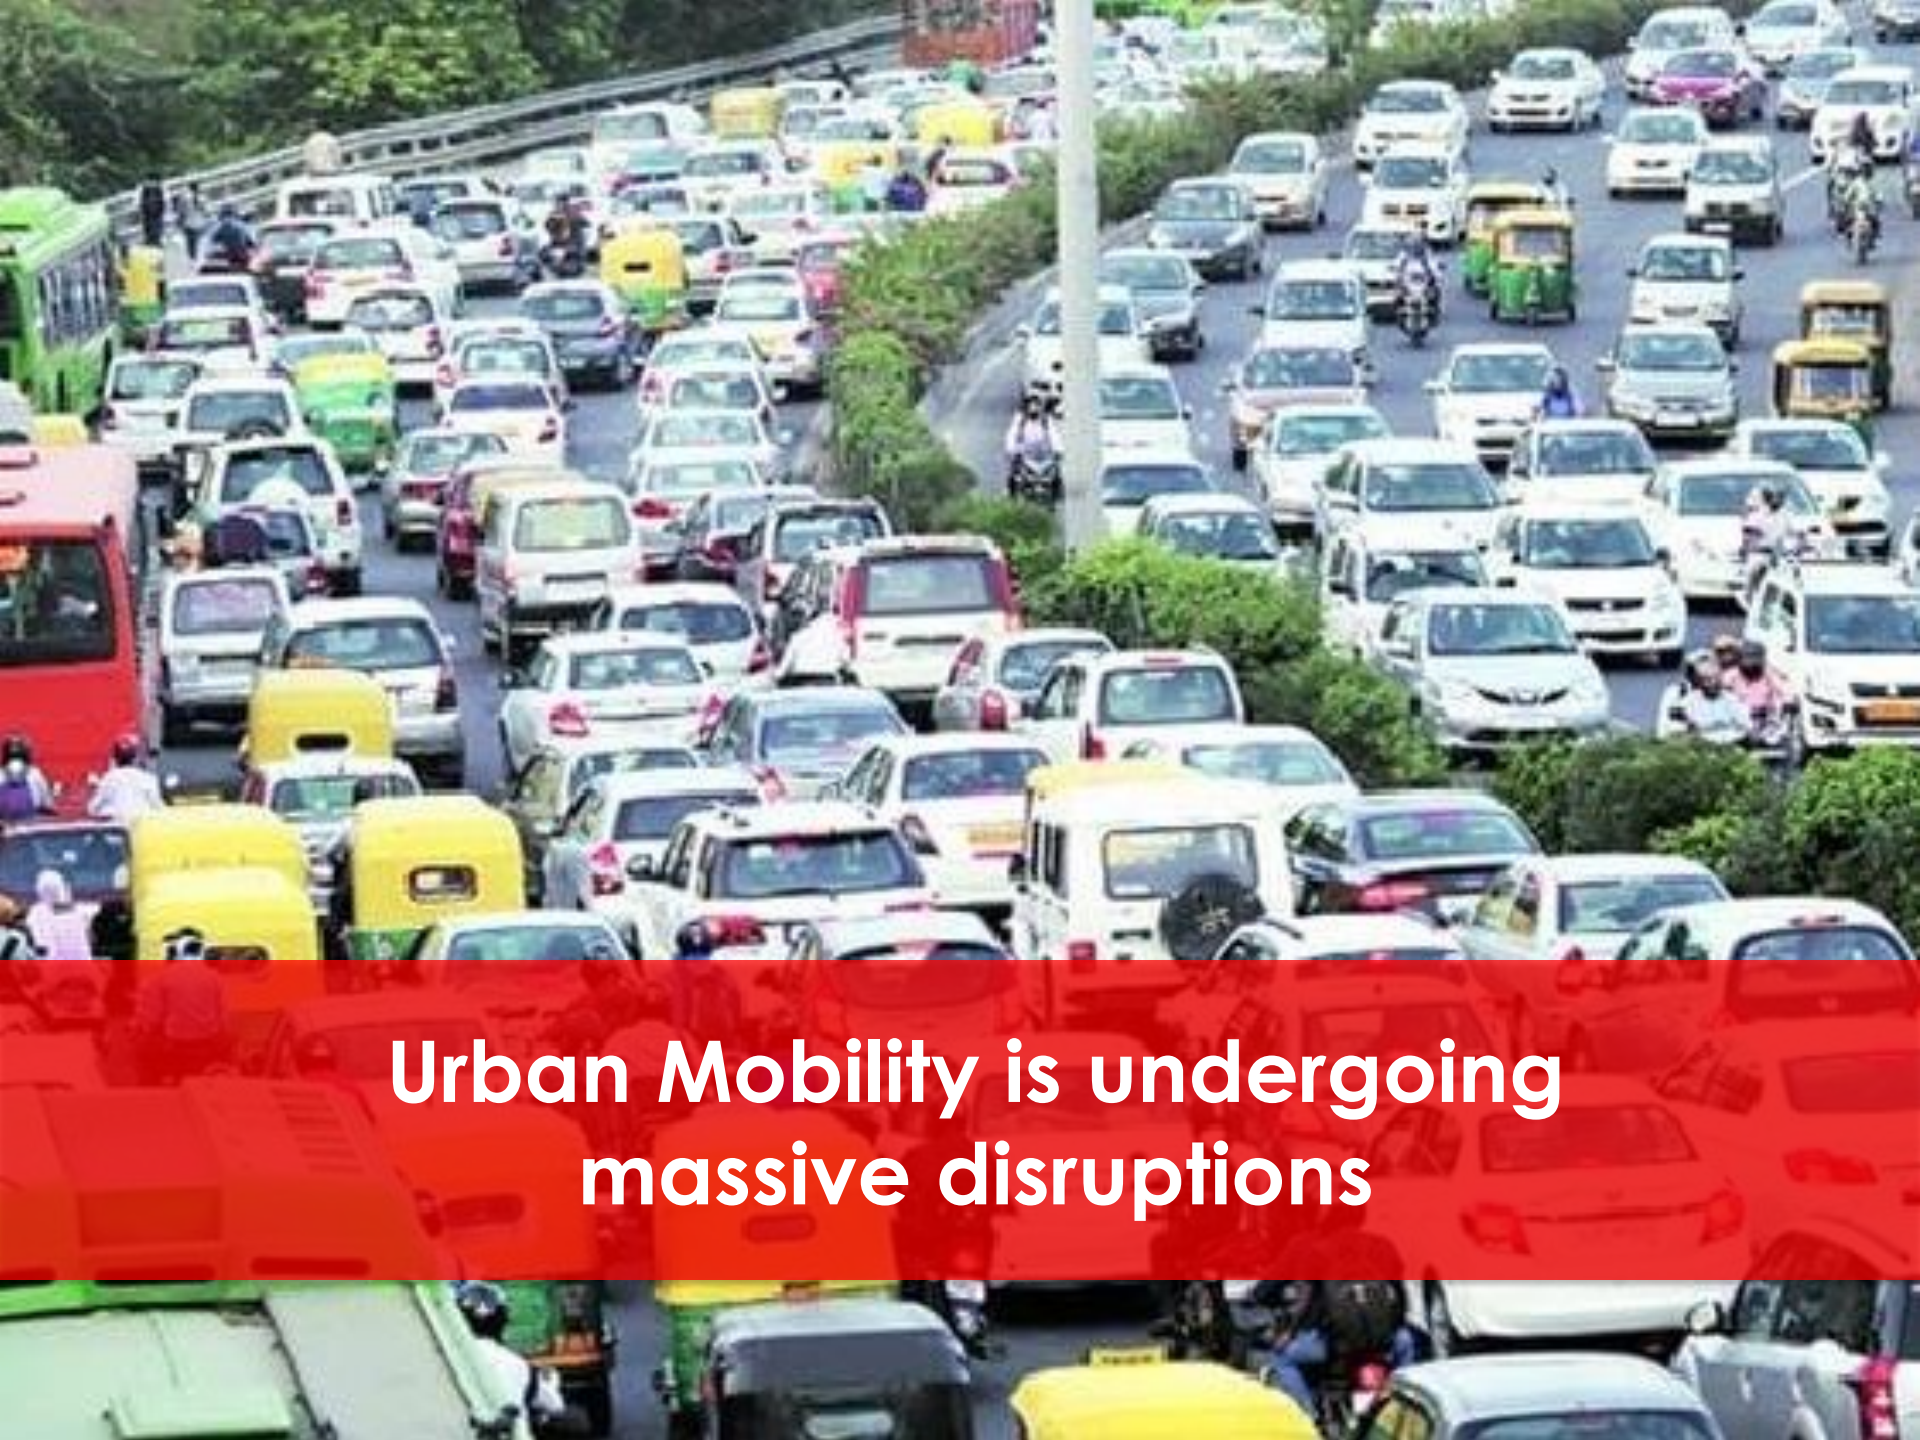

Urban Mobility India 2018  
2<sup>nd</sup> November 2018

# GROWTH OF SOME MAJOR CITIES

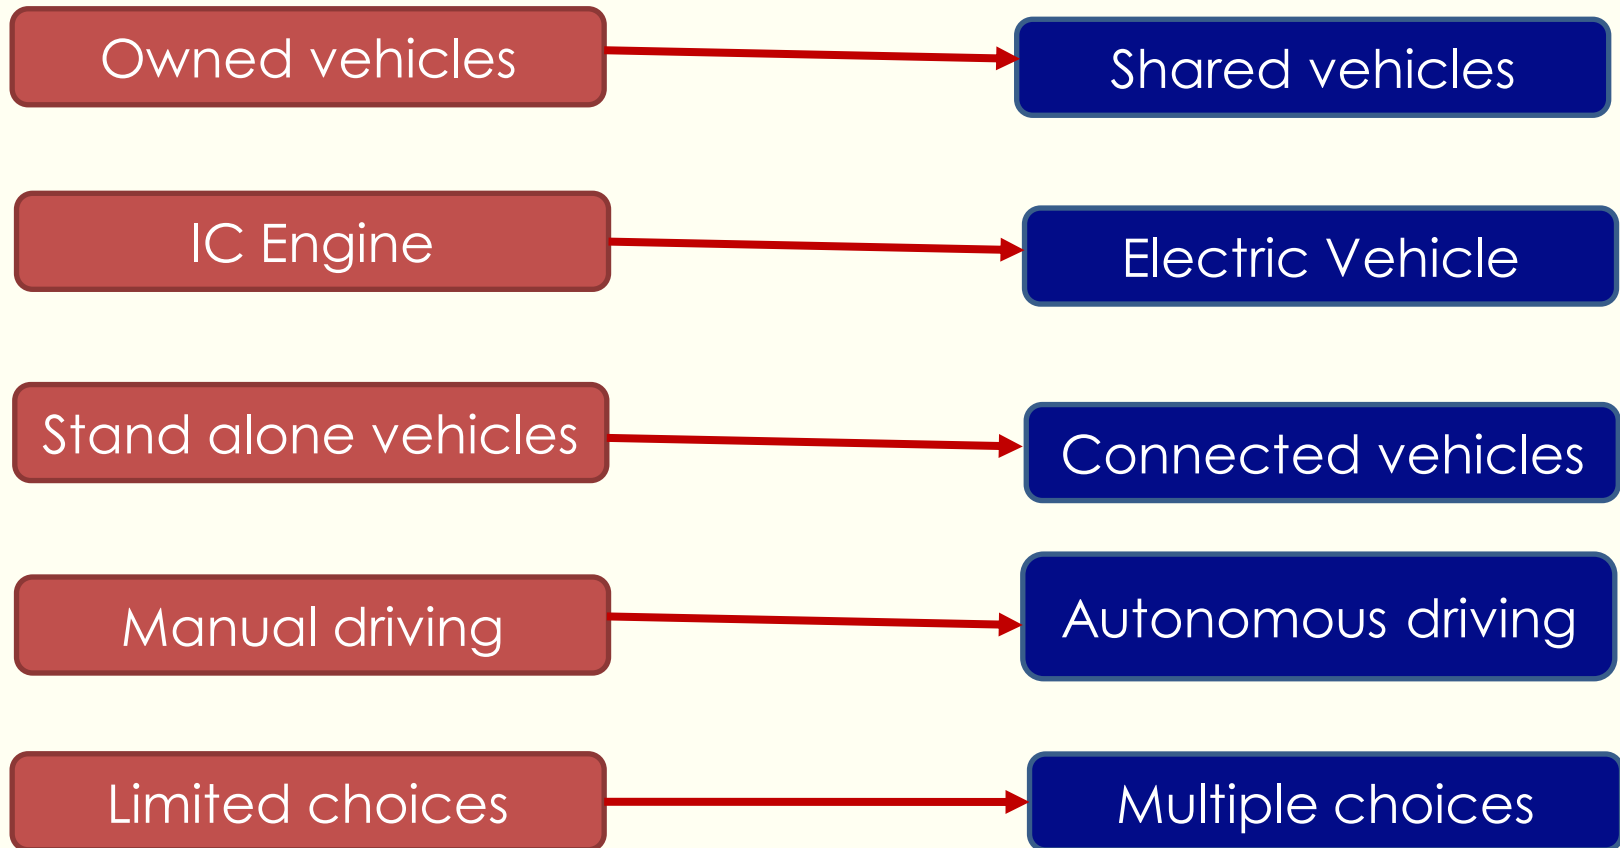

Source – World Urbanization Prospects 2018 – UN DESA

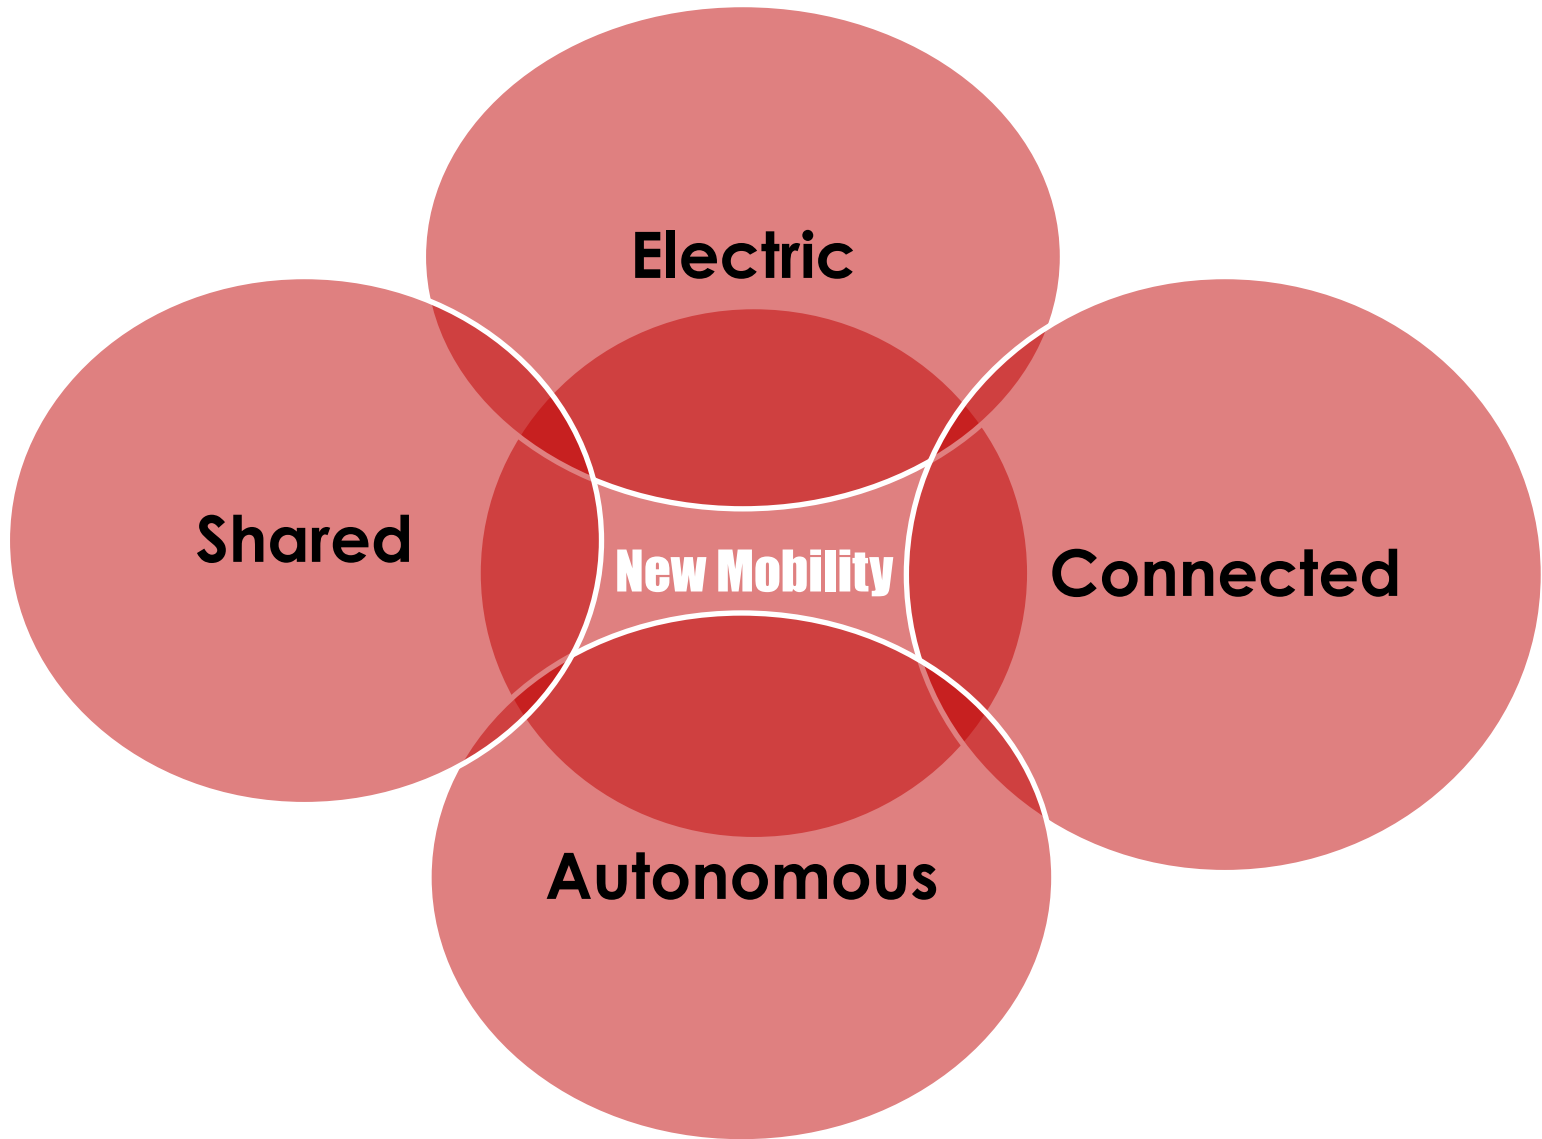

India will have some of the biggest cities in the world

**Urban Mobility is undergoing  
massive disruptions**

# Disruptions

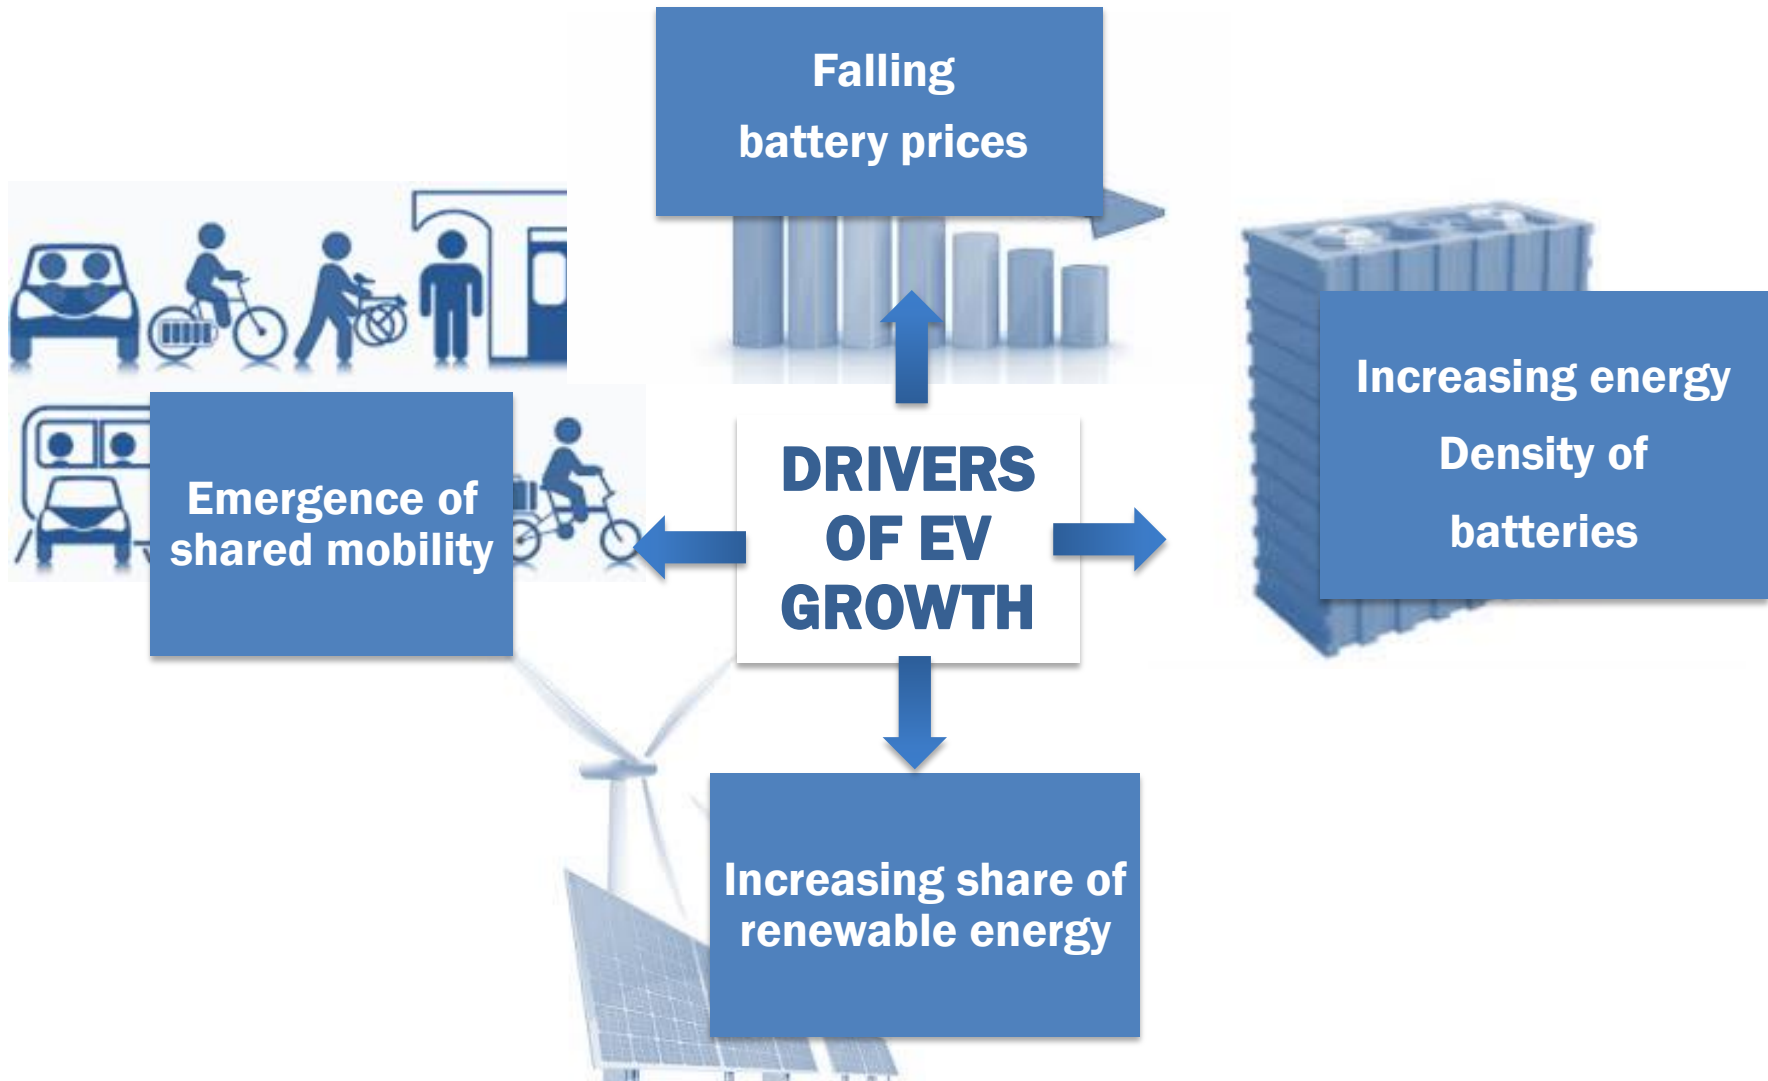

**Hassles of driving in  
congestion**

**Multiple choices**

**DRIVERS OF  
SHARED  
OPTIONS**

**Hassles of parking**

**Convenience of the  
smart phone**

**An empty seat in any moving  
vehicle is a wasted resource**

# Questions for discussion

- Are these disruptions desirable or not desirable - what are the benefits and potential problems?
- What are the challenges in the Indian context?
- How should our policies either promote or regulate these disruptions?
